The Race

Embrace the telematics revolution.

Contractors

are racing to choose **one** mixed fleet solution.

Dealers

are racing to get contractors to choose their mixed fleet solution.

JOHN DEERE

FLEET INTELLIGENCE

OTHER OEM SOLUTIONS

Only two mixed fleet solutions are designed for dealers - Fleet Intelligence is winning in the marketplace.

The contractor's data is only available to the dealer whose mixed fleet solution was implemented.

Once a mixed fleet solution is implemented with the contractor, it's nearly impossible to undo.

1

This is your one chance to infiltrate the market and win your contractor's data. Once they've chosen a solution, your opportunity is gone.

WHICH SOLUTION ARE YOUR CUSTOMERS CHOOSING?

4 Steps to Success

Step #1

Get to know Fleet Intelligence™

Attend a webinar or schedule a private demo, to become familiar with Fleet Intelligence.

Step #2

Create Your Offer

Determine how you'd like to present Fleet Intelligence to your customers. We can help as little or as much as you need.

Step #3

Identify Strategic Customers

Find contractors with at least 20 machines that are strategically important to you.

Step #4

Schedule the Sales Appt

Schedule an appointment with your customer and we'll be there to support you in person or remotely.

877-57-FLEET

FLEET INTELLIGENCE OVERVIEW

Benefits for Dealers

Fleet Intelligence, the mixed fleet solution designed for dealers, gives you an upper hand in the new telematics era in three ways:

Command
Market
Share

Generate
More
Revenue

Deepen
Customer
Partnerships

We use a poker game analogy to demonstrate how mixed fleet data will determine tomorrow's survivors. If you and your toughest competitors are playing poker, telematics data is what allows you to see the other three players cards.

Once your customer has adopted a mixed fleet solution, usurping the solution will be next to impossible. Secure your survival and your advantage by implementing your mixed fleet solution with contractors first.

JOHN DEERE ENDORSED SOLUTION

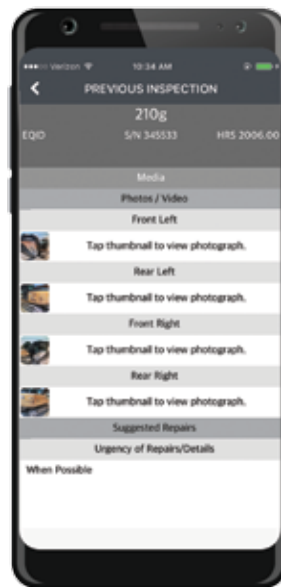

FREE Inspection App

Get Inspection Results in IATC Today

Now you or your customers can inspect any brand of machine and you'll get the results in IATC and Fleet Intelligence. **Double your consumables revenue** through mixed fleet alerts while providing world class service to your customers. It's a win-win.

The inspection app is free with your Fleet Intelligence subscription.

Features for Contractors

All data can be exported in two clicks.

ALL-IN-ONE

Your entire mixed fleet in one place, live.

View in-office with our mounted 50" monitor; in the field via iPad; or at dispatch on a computer.

JOB SITE

Protect assets and manage costs.

Asset Protection
Receive geofence and curfew alerts based on boundaries and times that you define.

Cost Management
See hours and fuel usage organized by job site.

Job Site	Hours	Fuel Usage
Job Site 1	100	1000
Job Site 2	200	2000
Job Site 3	150	1500
Job Site 4	80	800
Job Site 5	120	1200

MACHINE HEALTH

Maximize uptime.

Preventative Maintenance
Automate maintenance scheduling and tracking.

Oil Scans & DTC Alerts
Derail downtime - keep your machines running.

MAXIMIZING UTILIZATION

All underutilized machines on one map.

Relocate underutilized assets instead of renting more.

FOREMAN INSIGHTS

Achieve more.

Analyze Data
View machine statistics by foreman.

DYNAMIC GEOLAYER

Get what you need how you need it.

Filter instantly and get relevant information now.

Fleet Intelligence Platinum Subscription

Included Features

- Map
- Location
- Hours
- Geofencing w/ alerts
- Jobsite locations
- DTC alerts
- Oil scans
- Maintenance scheduler
- Machine utilization by jobsite
- Foreman machine assignments
- Machine utilization by foreman

Dealer Price: \$6 per machine per month

Optional Add Ons

Team Intelligence

Timecard entries by employee

\$4 per employee per month

TV For Contractor Office *

- 50" HD Monitor with Tilt Wall Mount
- White glove turn-key installation service
- Monitor Plaque with Dealer Logo and Name
- Pre-configured Mini Windows PC
- FI automation and monitoring software package
- Monitoring and Remote Support
- Bluetooth Keyboard
- Surge Protector
- Touchscreen (\$2,500 added to one-time fee)
- Defective hardware replacement

\$350 - one time fee per monitor
(trip fees apply if remote install location)
\$2,160 - 3- year monitoring service

* Other fees may apply.

All prices are in US dollars.

Dealer Incentive Program

JOHN DEERE ENDORSED SOLUTION

- MIXED FLEET DATA**
All of their assets in one convenient application
- ASSET PROTECTION**
Get geofence and curfew alerts
- COST MANAGEMENT**
Analyze hours & fuel usage by job site and foreman
- PREVENTATIVE MAINTENANCE**
Manage maintenance to maximize uptime
- MAXIMIZE UTILIZATION**
Filter for low utilization machines with our dynamic geo layer

DEALER BENEFITS

- COMMAND MARKET SHARE**
Leverage complete information to make better offers to your customers
- DEEPEN CUSTOMER RELATIONSHIPS**
Hang the only branded billboard in your customer's office
- INCREASE REVENUE**
Create value based on your customer's entire fleet
- GAIN STRATEGIC ADVANTAGE**
Harness the power of mixed fleet data to propel your sales team into the next era

THRU DEC

\$3 REBATE/ MACHINE - OCTOBER (starts 9/18/17)

\$2 REBATE/ MACHINE - NOVEMBER

\$1 REBATE/ MACHINE - DECEMBER

The quicker you **sell**,
the more you **save**.

Customers that sign a Platinum Fleet Intelligence™ contract from September 18 through December 31, 2017 will receive a discount on each of their machine's software subscription. This rebate will stay in place for the duration of the contract.

Rebate amount correlates to month in which customers sign the Platinum Fleet Intelligence™ contract. For example, orders submitted on November 1, 2017 will receive a \$2 discount per machine for the duration of their contract.

TELEMATICS DEVICE OVERVIEW

The New Data Structure

PRICING STRUCTURE

1. Telematics Devices

2. Data Transmission Fee
similar to your cell phone bill

3. Fleet Intelligence
Subscription

Data sources such as Excel and the Inspection App will not incur fee #1 or fee #2.

Telematics Device Features

Device Features

		Device	Weather Proof	Shock & Vibration Resistant	Power Source	Calling Frequency	Data: Location	Data: Engine Hour or Mileage	Data: Driver Behavior	Input Options
Trailer Tracker		TTU - 720			Battery	1/day	●			
Asset Tracker		TTU - 2830	●	●	3 Wire Install	2 min	●	●	Optional	1 Avail
Light Duty Vehicles (Engine Data)		LMU - 3035			OBDII Port	2 min	●	●	Optional	
Light Duty Vehicles (no engine data)		LMU - 2630			3 Wire Install	2 min	●	●	Optional	Avail
Heavy Duty on the road Vehicles (Engine Data)		LMU - 4230			jbus	2 min	●	●	Optional	Avail
Heavy Duty Construction Equipment (Engine Data)		LMU - 4520	●	●	jbus	2 min	●	●	Optional	Avail

Additional Details

TTU - 2830: Ideal for heavy duty construction equipment that does not require engine data. Backup battery is recharged while engine runs or with other power sources on alternate assets. Can potentially be used for generators and compressors if running often and long enough. Able to connect to one input for additional data, such as counting how many times an excavator arm is engaged.

LMU - 3035: Ideal for light duty vehicles with OBDII port. T Harness OBDII cable available upon request to conceal device in dash behind the OBDII port.

LMU - 2630: Ideal for light duty vehicles where engine data is not needed but an input such as PTO (power take off) engaged is needed.

LMU - 4230: Ideal for heavy duty over the road vehicles needing engine data.

LMU - 4520: Ideal for heavy duty construction equipment needing engine data. If no use for engine data, then the TTU-2830 is recommended.

Device Installation

Foresight Intelligence® is able to install any of the listed devices.

Telematics & Data Transmission Pricing

Additional Terms & Conditions

Pricing: Prices are subject to change prior to renewal. **Other models available; popular models shown above.**

Foresight Intelligence® Sales Incentive: The sales incentive can either be paid monthly directly to a Dealer Salesperson or issued as a monthly Rebate back to the Dealership. All orders must be complete and accepted by Foresight Intelligence® during the Program Period (defined as 9/18/2017 - 12/31/2017) to qualify for payment. All incentive payments are subject to prior written approval of Dealer. Salesperson to receive payout must be employed with Dealer and in good standing, at least 18 years old, and listed on the order form as "Salesperson Incentive Payment Name" at time of order. Dealer can disallow or reduce payments to Salesperson for any reason at their sole discretion without any liability arising from Dealer and/or Salesperson to Foresight Intelligence®. The amount approved by Foresight Intelligence® and Dealer represents the complete obligation of Foresight Intelligence® for this Program. Orders with special pricing or discounts do not qualify for the Foresight Intelligence® Sales Incentive. Foresight Intelligence® reserves the right to terminate or modify the Program at its sole discretion. Program is void where prohibited or restricted. Additional restrictions may apply. See Official Program Rules for full details.

***Data:** Data is included in the prices above. All telematics devices provide data with two-minute updates except the TTU-720 Trailer Tracking Unit (not listed but offered by Iron Intel) which provides data once a day.

****Warranty start date is the ship date (date that Iron Intel ships ordered units to Customer). On Best Value Plan, Customer receives a one-month grace period from ship date to accommodate installation, in effect receiving a 37-month warranty. Warranty is cancelled/voided in the event of cancellation prior to the warranty term on the date of Customer cancellation. Iron Intel will repair or replace, at Iron Intel's sole discretion, Hardware having Defects (or the defective part thereof). An RMA is required to be filled out from the Customer for return and a shipping label will be provided to ship back the defective Hardware.**

The warranty shall not apply to (i) Hardware normally consumed in operation such as fuses, cables, antennae or mounting brackets; (ii) Hardware that Iron Intel determines has evidence of a broken seal, which will invalidate the warranty, or (iii) Hardware that Iron Intel determines does not have Defect(s), or is not working or is damaged or causes damage as a result of Customer's unauthorized or improper use, storage or other non-warranted condition including but not limited to: (a) improper operation, (b) any combination, operation or use with equipment, software, services, technologies or processes not furnished by Iron Intel; (c) detrimental exposure to corrosive or other chemicals, electric shock or surge, excessive temperature, impact or vibration, water, weather conditions or other elements; (d) involvement in any collision, accident, explosion, fire or any man made or natural force of any kind including Act of God; and (e) tampering, alteration, improper Installation or repair by any party other than Iron Intel or its authorized Installer(s). Repair or replacement under warranty of Hardware with Defect(s) will not extend the Warranty Period. Replacement Hardware or components may be new or reconditioned, and may consist of comparable Hardware or components manufactured by the same or other manufacturers, in the sole discretion of Iron Intel. Customer at its own cost shall un-install the Hardware from the Asset and package it to be shipped back to Iron Intel. Customer is responsible for inbound shipping costs to Iron Intel. Iron Intel will cover outbound shipping of the replacement Hardware to Customer within 30 days once the defective Hardware has been received. Customer is then responsible for the costs to re-install the Hardware.

*****Network Device Upgrades:** In addition to the warranty, the All-Inclusive Plan also includes any mandatory upgraded devices at no additional cost other than un-install and install costs. This means that any mandatory network conversions (such as 3G being replaced with 4G), the All-Inclusive Plan includes these upgraded devices at no additional cost. This does NOT include un-installation and re-installation of the older devices with the new devices. Installation costs remain the responsibility of the Customer.

+Total assumes that 100% of the sales incentive is rebated back to the Dealership.
